

Plexicor is Australia's leading transport and communication infrastructure solutions provider. Established in 1978, Plexicor is part of the Futuris and Elders group of companies.

Providing innovative and flexible "whole of life service" solutions, for both government and for many of Australia's iconic brand companies, Plexicor products can be found in every town and city in Australia.

Plexicor has a long and successful history of integrating global technology into the Australian environment. From concept design through to infield service and maintenance, Plexicor can provide the total solution.
